

Where to Find or Buy Accessible Books, Documents and Media

Where to buy braille transcription services

***NOTE:**

- The difference between producing Braille and embossing bumps on a page has to do with proper formatting. If you have access to a Braille embosser with Braille Translation software and do not know how to transcribe, and the document need is formal or complex (i.e. tables graphs, etc.), BUY the service.
- A single page of print usually becomes 2 to 3 pages of Braille. Braille Transcription services usually charge by the page.

Foundation for Blind Children <https://seeitourway.org/services/braille-on-demand/> 602-337-8221 (Phoenix, AZ)
